

Misery of Mankind

Theory Of A Deadman

All you wanna do is stuck your face and being naughty
All you wanna do with me is fight, fight, fight, fight
All you ever do is got excuses that you're boring
All you wanna do with me is fight, fight, fight, fight
Cuz everything you gonna touch you still don't find the courage
Take your life between your hands and go

Ooh you just a man from here, you think you know it all
You just a kube without a throe
Is like it's all in that dream, nothing is what is seams
This is the time to wake

You pulling us and get out, keep trying not to fail
You gonna prove your misery of mankind
You're going way to deep, you won't get your feet
But in the end you'll be the misery of mankind, mankind

All you wanna do is sing around and point the finger
Everything you see is seems like wild, wild, wild, wild

Everywhere you leave you ego stays beyond the liquor
Everything you say to me is like why, why, why, why
All you wanna do to me is prove that you idently
Take off is all how I wanna go

What happened to that bag full of drugs
I think we better now
It's time for you to hang alone

It's like it's all a bad dream nothing is as it seams
This is the time you to wake

You pulling us and get out, keep trying not to fail
You gonna prove your misery of mankind
You're going way to deep, you won't get your feet
But in the end you'll be the misery of mankind, mankind

It's like it's all a bad dream nothing is as it seams
This is the time you to wake

You pulling us and get out, keep trying not to fail
You gonna prove your misery of mankind
You're going way to deep, you won't get your feet
But in the end you'll be the misery of mankind, mankind

You pulling us and get out, keep trying not to fail
You gonna prove your misery of mankind
You're going way to deep, you won't get your feet
But in the end you'll be the misery of mankind, mankind
