

# Dopamine, Serotonin, Adrenaline

## Therapy?

God give me strength  
God make me well  
God take me somewhere  
Anywhere but here

One cure fits all

Dopamine, serotonin and adrenaline  
Dopamine, serotonin and adrenaline  
Dopamine, serotonin and adrenaline  
Dopamine, serotonin and adrenaline

Fill my mornings with light  
And my nights with hope  
Make me realise  
What I have is more

One cure fits all

Dopamine, serotonin and adrenaline  
Dopamine, serotonin and adrenaline  
Dopamine, serotonin and adrenaline  
Dopamine, serotonin and adrenaline

Scientists have discovered a biochemical link between the overwhelming state of love, drug addiction and violence. These emotions are actually controlled by three very powerful drugs: dopamine, serotonin and adrenaline. There is a connection between drug addiction, mental illness and love at first sight.

So scared of dying  
I've forgotten how to live

So scared of dying  
I've forgotten how to live

So scared of dying  
I've forgotten how to live

So scared of dying

Dopamine, serotonin and adrenaline  
Dopamine, serotonin and adrenaline  
Dopamine, serotonin and adrenaline
