Dopamine, Seratonin, Adrenaline

God give me strength God make me well God take me somewhere Anywhere but here

One cure fits all

Dopamine, seratonin and adrenaline Dopamine, seratonin and adrenaline Dopamine, seratonin and adrenaline Dopamine, seratonin and adrenaline

Fill my mornings with light And my nights with hope Make me realise What I have is more

One cure fits all

Dopamine, seratonin and adrenaline Dopamine, seratonin and adrenaline Dopamine, seratonin and adrenaline Dopamine, seratonin and adrenaline

Scientists have discovered a biochemical link between the overwhelming state of love, drug addiction and violence. These emotions are actually controlled by three very powerful drugs: dopamine, seratonin and adrenaline. There is a connection between drug addiction, mental illness and love at first sight.

So scared of dying I've forgotten how to live

So scared of dying I've forgotten how to live

So scared of dying I've forgotten how to live

So scared of dying

Dopamine, seratonin and adrenaline Dopamine, seratonin and adrenaline Dopamine, seratonin and adrenaline Dopamine, seratonin and adrenaline
