

Loose

Therapy?

Let me try on your dress
It turns me on when we're a mess
Something's kickin' in
I smell the summer on your skin
I'm sick of being down
We're coming up so let's go out
We won't live forever now
So let's make the most of it somehow

Your body is loose
(And you're going down)
Your body is loose
(You're going down)
Your body is loose
(And you're going down)
Today

I don't care where you're from
Whatever planet you think you're on
Cos you're my space cadet
I'll go anywhere with you, Yeah
Baby you're still lonely
But I love you you're my best friend
We look like sister and brother
According to all our friends

Your body is loose
(And you're going down)
Your body is loose
(You're going down)
You're body is loose
(And you're going down)
Today

Your body is loose
(And you're going down)
Your body loose, yea
(You're going down)
Your body is loose
(And you're going down)
Today

There's no guns firing now
Big yellow cranes hold up the clouds
And this season's changed me
I've fallen into a different skin
We make quite a pair
And we look stupid, we don't care
We need no explanation
Just keep on taking the happy pills

Your body is loose
(And you're going down)
Your body is loose
(You're going down)
You're body is loose
(And you're going down)

Today

Your body is loose
(And you're going down)
Your body is loose
(You're going down)
Your body is loose
(And you're going down)
Today

Let me try on your dress
