

## Our love must die

Therapy?

My dear young lover, this is just to say I'm gone  
Couldn't leave you if I faced your eyes and shaking  
Was my loneliness that kept me hanging on  
Forgive my emptiness, I've nothing more to say

And this is why our love must die

I thought of other girls when you made love to me  
You gave yourself too much and I took full advantage  
The more I pushed you back the more you clung to me  
Don't want to be the one who reminds you of your father

This is why our love must die

My dear young lover, that was just to say I'm gone  
I couldn't face your face the morning after shaking  
I'll turn up one day when I feel so alone  
You just tell me to get my things and go

And you'll know why our love must die

Our love must die, our love must die  
Our love must die, our love must die  
Our love must die, our love must die  
Our love must die, our love must die
