

Shitkicker

Therapy?

This is warning number one
Next time we're back we'll bring the gun
And I won't take this shit from you
You'll be swimming in cement shoes

You're just nothing
You're just nothing

I'm the king of this town
Don't you fuck me around
A man of people, me
My people never be free

You're just nothing
You are nothing

Get down on your knees
You're nothing but a little piece of shit
Take your orders from me
I run this town

You're just nothing
You are nothing
