

This reminds me when they shot him dead  
Don't go out of this place is what he said  
Saw a movie and I finally cried

You sent me skyward, skyward

So many people asking how much I had  
The world flashes, Christians slide into Hell  
What I've got is bad but I'm as high as a bird

She sent me skyward, skyward

Said, one day I'm dreaming just about like before  
You sure of my feelings just like before (?)  
(one day you're sure I'm off my face I just the door)  
I got stabbed back then so I said  
(one day I've got to step back and see where to)

You sent me skyward, skyward

You took your heart with you safe as mine (?)  
Time after time I've broached desire (?) (take away the pain) (?)  
In those parties where all times of year (?)

She poured me skyward, skyward  
skyward, skyward
