

Sprung

Therapy?

I've reached that point again
There's decisions to be made
Prioritise and organise
Foundations for the future

Well I've seen it all before
Feels like a previous life
I got it wrong back then
This time I've got to get it right

They didn't believe me then
They won't believe me now
They won't believe me
Anyhow

A fearless, reckless life
Can have consequences
But still I'd rather feel something
I'd rather take my chances

They didn't believe me then
They won't believe me now
They won't believe me
Anyhow

They didn't believe me then
They won't believe me now
You're on your own
Don't take it lying down

Don't take it lying down
Don't take it lying down
Don't take it lying down

Don't take it lying down
Don't take it lying down
Don't take it lying down

They didn't believe me then
They won't believe me now
They won't believe me
Anyhow

They didn't believe me then
They won't believe me now
You're on your own
Don't take it lying down
