

## Success? Success Is Survival

Therapy?

The cream of this country, rich and fake  
Will always rise to the top  
Those beneath on hands and knees  
Left to curl and rot

That's the order that's been set  
We're expected to accept  
You can dream how you want  
But you'll never get

Success?  
Success is survival  
Success?  
Success is survival

They choose homes in the Promised Land  
A luxury they don't have  
And put their kids on the water  
'Cause it's just not safe on the land

That's the order that's been set  
We're expected to accept  
You can dream how you want  
But you'll never get

Success?  
Success is survival  
Success?  
Success is survival

Some of us have nothing left  
Some of us take it all  
Some of us have nothing left  
Divided, vulnerable

Success?  
(Keep going, keep going)  
Success is survival  
Success?  
(Keep going, keep going)  
Success is survival  
Success?  
(Keep going, keep going)  
Success is survival  
Success?  
(Keep going, keep going)  
Success is survival
