

# Vulgar Display of Powder

Therapy?

Full of yourself to bursting  
No self awareness or self control  
All of the bullshit your blurting  
Everyone's heard it all before

Bombastic and pompous  
Coked up to the eyes  
This isn't how you cope  
You coward  
You finally turned  
Into what you despise  
And now you're a joke  
You coward

Now you really let me down  
And I don't want you around

Walked in your desperation  
Slave to the ritual unable to play  
A battle of endless static  
Must you say everything that you think?

Bombastic and pompous  
Coked up to the eyes  
This isn't how you cope  
You coward  
You finally turned  
Into what you despise  
And now you're a joke  
You coward

Now you really let me down  
And I don't want you around

Bombastic and pompous  
Coked up to the eyes  
This isn't how you cope  
You coward  
You finally turned  
Into what you despise  
And now you're a joke  
You coward

Now you really let me down  
And I don't want you around

You coward  
You coward  
You coward  
You coward
