

Watch You Go

Therapy?

From a place that no one knows
Populated by everyday Joes
I just wanna let you know
Everyday I feel like one of those

All hope is gone
I don't believe you, baby
Too bad

You wept till the day I left
Muttered something under your breath
My heart was sorry, but my head was set
And these days I just won't forget

All hope is gone
I don't believe you, baby
Too bad
I'll just watch you go
Watch you go
Watch you go
Watch you go

I don't recall a single word I said
That day I left your place for dead
I'm truly sorry, I don't remember why
Too bad if you just can't take it
This is no freedom ticket

I'll just watch you go
Watch you go
Watch you go
Watch you go
Watch you go
Watch you go
Watch you go
Watch you go
