

## Watch You Go

Therapy?

From a place that no one knows  
Populated by everyday Joes  
I just wanna let you know  
Everyday I feel like one of those

All hope is gone  
I don't believe you, baby  
Too bad

You wept till the day I left  
Muttered something under your breath  
My heart was sorry, but my head was set  
And these days I just won't forget

All hope is gone  
I don't believe you, baby  
Too bad  
I'll just watch you go  
Watch you go  
Watch you go  
Watch you go

I don't recall a single word I said  
That day I left your place for dead  
I'm truly sorry, I don't remember why  
Too bad if you just can't take it  
This is no freedom ticket

I'll just watch you go  
Watch you go  
Watch you go  
Watch you go  
Watch you go  
Watch you go  
Watch you go  
Watch you go
