

## Black Sun

Therion

Black Sun rising over mankind  
All the Slavegods will be sunblind  
Sorath shining through his new priest  
who proclaim the rise of The Beast  
Bear the Torch across the darkness  
and hold up the Spear of Destiny  
Hail Deggial, Sign of the Black Sun  
We will light the flames of victory, HAIL!  
Black sun burning the face of Earth  
and preparing the new gods birth  
Sorath coming to the black feast  
and speak the voice of the beast.  
Bear the Torch across the darkness  
and hold up the Spear of Destiny  
Hail Deggial, Sign of the Black Sun  
We will light the flames of victory, HAIL!
