

## Genocidal Raids

Therion

Nascency of evil  
Money genuflect  
Inner mind excrescence  
Depraving object  
Dollar paranoia  
Dominance of hate  
Enchanting like a drug  
They need it desperate  
Genocidal raids  
They have praised the Oath  
In Unitied States  
Now they sell death  
And they will die  
Why buy death?  
Die a certain death  
Why  
Must we take this hell?  
Lunacy  
Of the human race  
Some are starved  
Others live in galore  
Just ain't right  
That some are getting pittance  
Carrion of a dog lying dead  
Disembowl this animal eat the flesh  
They're coming in the night  
And they have to fight  
About a piece of offal  
That's the feral world  
Eat the flesh and get sick, see the dead  
Fatal life slips away get no help  
They're coming in the night  
And they have to fight  
About a piece of offal  
That's the feral world  
Multinational  
In South Africa  
Give oppression gold  
Help them blast the Black  
Then you will die  
Why buy death?  
Why?
