

## Powerdance

**Therion**

End of day, another sun fades away  
Darkness fills the sky  
As I enter the night  
In the sign of the warrior  
Winds of magic  
Blow within my mind  
Powerdance  
There is a sphere deep within my mind  
Where I'll become a god  
Who will reign a world of astral space  
I fade away  
Into the voids of the dark  
As I dance, powerdance  
To my own paradise  
Powerdance  
Step by step I'm moving closer to my goal  
There is no vanity that can stop my final move
