

## Careful What You Pack

### They Might Be Giants

The known, the unknown, and the under-known  
Look at what she found  
Digging all around  
By the goldfish pond  
She's gonna get in trouble now  
Shaking up the bees, swinging from that tree  
Doesn't understand  
She's in trouble now

It's a new year  
Careful what you pack  
There's no going back  
She's lost from the beginning  
She's the new girl

She thinks she's smart; she's just curious  
She thinks she's alone  
Doesn't even know someone's watching her  
She's gonna get in trouble now  
Waving from the shore, never knew before  
Doesn't understand  
She's in trouble now

It's a new year  
Careful what you pack  
There's no going back  
She's lost from the beginning  
She's the new girl

Careful what you pack  
There's no going back  
She's lost from the beginning  
She's the new girl
