They Might Be Giants

Everything's catching on fire
Yes, everything's catching on fire

I hear the wind blow
I hear the wind blow
It seems to say: "Hello, Hello,
I'm the one who loves you so."
Hey now everybody now
Hey now everybody
Hey now every body now
Who's that standing out my window?
I found a new friend
underneath my pillow
Come on and wreck my car (repeat)
Aren't you the guy who hit me in the eye? (repeat)
Please pass the milk, Please (repeat)
Leave me alone, leave me alone
Who's knocking on the wall?
All alone all alone
all by myself
What's that blue thing doing here?
Something grabbed ahold of my hand
I didn't know what had my hand
but that's when all my troubles began
I cannot understand you
I don't understand you
I don't understand the things you say
I can't understand a single word
I don't understand you
I just don't understand you
I cannot understand you
I don't understand you
I heard a sound, I turned around
I turned around to find the thing
that made the sound
Mysterious whisper (repeat)
The day that love came to play
I'm having a heart attack
I'm having a heart attack (repeat)

I walk along darkened corridors
and I walk along darkened corridors (repeat)
