

## Memo To Human Resources

### They Might Be Giants

I'll be in the back, and I don't need the help  
I'm good here in the back  
I'm good all by myself  
I'm busy taking stock of all the things that I've forgot (5 4 3  
2)  
And making mental notes of just exactly where I lost the plot (  
2 2 2 2)

I stuck around too long feeling sorry for myself  
A disinvented guest rifles through the bathroom shelf  
I'm searching for some disbelief that I can still suspend (5 4  
3 2)  
But never mind the furthermore-the plea is self-  
defense again (2 2 2 2)

Then the people came to talk me down  
And I got some advice  
Then the people came to talk me down  
But I don't need advice-I'm down

Later in my car I considered what you said  
I'm good here in my car  
I'm good with what you said  
And I'd be shouting out to you but I was mighty hoarse  
Talk you through the finer points and issues much too small to  
force

Then the people came to talk me down  
And I got some advice  
Then the people came to talk me down  
But I don't need advice-I'm down
