

## The World Before Later On

### They Might Be Giants

I'm trapped in a world before later on  
I'm trapped in a world before later on

Where's my hovercraft?  
Where's my jet pack?  
Where's the font of acquired wisdom that eludes me now?

We're trapped in a world before later on  
We're trapped in a world before later on

Where's our telray?  
Where's our space face?  
Where are all the complications we won't see around?
