## The World Before Later On

**They Might Be Giants** 

I'm trapped in a world before later on I'm trapped in a world before later on

Where's my hovercraft? Where's my jet pack? Where's the font of acquired wisdom that eludes me now?

We're trapped in a world before later on We're trapped in a world before later on

Where's our telray? Where's our space face? Where are all the complications we won't see around?
