

## They Got Lost

### They Might Be Giants

Julie at the station says They'll be here any minute now  
But she's running out of records and her show is ending anyhow.  
They can hear her saying Their name on the car radio  
But the signal keeps fading out no matter which way They go.  
I heard They Might Be somewhere in this town  
They Might Be Giants got lost driving around

John said to John, I think we make a left at the light  
There should be a big crinkle, assuming this map is right  
John looked over and said, Hey, no its not  
It's a crumpled up wrapper from the fast food that we got  
I heard They Might Be somewhere in this town  
They Might Be Giants got lost driving around

Dan said to Hal, "I see somebody walking this way"  
So They rolled down the window and said, "Hello. Hey excuse me,  
hey"  
"Could you tell us where we are and the best way out of here"  
They could tell from his expression he had absolutely no idea  
I heard They Might Be somewhere near this town  
They Might Be Giants got lost driving around  
Driving around  
Driving around  
They're still driving around
