

Until The Next Time

Thi'sl

Yeah I just touched down
I ain't got a lot of time till I'm back on the road
Sometimes it's hard for you to see me coming
'Cause you know I gotta go ...
Girl I know that you hate to see me go ...
But you love looking forward to the next time

Every single weekend, in and out of airports
Tryna get my mind right, gotta get a clear thought
Am I on the right path? Is this what I'm here for?
Momma always told me "be careful what you ask for"
Pack, headed out the front door
Then I take a look back, baby what you sad for?
You know that I'm coming back, that's something I want more
Than to be here with you, what you think that ring for?
And I done been around the world
And there ain't nothin' out there for me, baby you my girl
And you know if I had to give it, I'd give you the world
But it ain't 'bout the money, but you want diamonds and pearls
Hello ... can't wait to walk back in the door
Take my bags off, put them down on the floor
Sneak up in the kitchen, baby why you at the stove?
Girl I know that you love to see me coming but you hate to see me go

Yeah I just touched down
I ain't got a lot of time till I'm back on the road
Sometimes it's hard for you to see me coming
'Cause you know I gotta go ...
Girl I know that you hate to see me go ...
But you love looking forward to the next time

Only two of us, thirty-five cities
Everywhere I go I wish that I could take you with me
But I love to get them texts saying that you miss me ...
"I miss you"
I wish that I could be with you like every single day
Every chance I get, I gotta get away
Make a phone call just so I can hear you say ...
"I love you"
I can't wait to make it back so we can get along
Go and take a ride, play your favorite song
Hit your favorite spot, get your favorite food
You know how it is baby, anything for you
Can't wait to walk back in the door
Take my bags off, put them down on the floor
Sneak up in the kitchen, baby why you at the stove?
Girl I know that you love to see me coming but you hate to see me go

Yeah I just touched down

Sometimes it's hard for you to see me coming
'Cause you know I gotta go ...
Girl I know that you hate to see me go ...
But you love looking forward to the next time

Soon as I get back, baby it's me and you
We can take a trip or something, probably go to Malibu

We can hit the 'hamas up, probably for a week or two
I don't care where we at as long as it's me and you
Can't wait to look off in her eyes
And see my baby girl, 'cause she my ride or die
And I can't picture life without you being by my side
The best thing I ever did was making you my wife
Can't wait to walk back in the door
Take my bags off, put them down on the floor
Come give me a hug, baby I bought you a rose
'Cause I know that you love to see me coming but you hate to see me go

Yeah I just touched down

Sometimes it's hard for you to see me coming
