

Is It Over?

Thievery Corporation

Far
Far, away.
I remember.
The world has gone astray
Close your eyes
Hold your breath.
Dream safer from the stars
And now I'm tangled in her web.

Time ever passing
I hear strange ghost
Fragments remind me of the memory that's now broke
Stranger than fiction
I don't understand
Do we ever really hold our dreams we thought with your head?

Is it over?
Is it over?
Is it over?

Summer night
Say good night
Like a cloud above your ocean,
Just drinking in the day.
Say good night
In a boat
Stranded in the moon light
It's become my home with you.

Time ever passin
I hear strange ghost
Shadows remind me of the memory that's now broke
Stranger than fiction
I can't understand
Are we ever really in control of dreams we have?

Is it over?
Is it over?
Is it over?
Is it over?
