

An Easy Tonight

Thieves Like Us

Standing there with dark in here
A crystal look, a crystal stare
Free release a soft affair
A free release a soft affair

An easy tonight
And do I want to get to her?
And do I want to know the name?
And should I fall inside of her?
Which one of us will pull the shade
Not easy to see

And I think I'm in need of a free release
I'm missing black line from the needle please
A centigrade knife off the mescaline
A V2 missile is my city clean

An easy tonight
Come into our world
We can show you what we're made of
x2

Think I'm in need of a free release
I'm missing black line from the needle please
A centigrade knife off the mescaline
A V2 missile is my city clean
