

# Headlong Into Night

## Thieves Like Us

Did you ever try to recreate  
Past events all caught up in your head  
Copies can be such an empty fix  
Dreams left on an infinite repeat

Can't believe I'm sitting next to you  
Outside, trains, they keep on passing by  
See the sunlight captured in your hair  
See the sunlight captured on your neck

Your face a sample in my head  
It refrains every day  
Like waves do  
Like waves do

If I could wipe you from my mind  
I'd do it straightaway  
Like waves do  
Like waves do

Did you ever stop to think  
Figure out how some systems work  
Copies can be such an empty fix  
Dreams left on an infinite repeat

Can't believe I'm sitting next to you  
Outside, trains, they keep on passing by  
See the sunlight captured in your hair  
See the sunlight captured on your neck

Your face a sample in my head  
It refrains every day  
Like waves do  
Like waves do

I'm running headlong into night  
Just to wipe you from my mind  
Like waves do  
Like waves do
