

Stay Blue

Thieves Like Us

This is the way to heaven
This is the way to the song
This is the way to heaven
I sing low

This is the way to nowhere
This is the way to le fin
This ain't the way to sunshine
Don't pretend

Will I stay blue? Will I stay young?
I can't see past my lonely eyes
I can't see past my lonely eyes
Will I stay blue? Will I stay young?
I can't see past my lonely eyes at night
I can't see past my lonely eyes at night

Will I stay blue? Will I stay young?
Will I stay young? Will I stay blue? / x2

This is the way to heaven
This is the way to the sound
This is the way to heaven
I sing low

This is the way to completion
This is the way to be
This is the way to something
You're my key

Will I stay blue? Will I stay young?
I can't see past my lonely eyes
I can't see past my lonely eyes
Will I stay blue? Will I stay young?
I can't see past my lonely eyes at night
I can't see past my lonely eyes at night / x3
