

Your Heart Feels

Thieves Like Us

See you in the club
see you in the crowd
see you in the west
and see you on east side

Doubt is in your heart
shattering your mind
making you feel low
it gives you a hard time

See me under dark
show me all your scars
show me all your thoughts
I'll show you a good time

See you in the club
see you in the crowd
I pass you by
and I call your name

Your heart feels over and over 4x

Your hearts

See you in the club
see you in the crowd
see you going out
and see you on the south side

Doubt is in your heart
shattering your mind
making you feel bad
it gives you a hard time

See me after dark
reveal all your scars
revel in your thoughts
I'll show you a good time

See you in the club
see you in the crowd
I pass you by
and I call your name

Your heart feels over and over 8x

Your hearts

Feels so low 18x
