

# Borderline

Thin Lizzy

1. Its Midnight in the big city  
At the bar drinking all on my own  
Just thinking about that girl and me  
How something's going wrong

2. Mister tell me  
Whats my saving grace  
The backroom boys are all telling me  
I'm a borderline case

R: Back on the borderline one more time (2x)

3. Seven beers and still sober  
It's time to change to something stronger  
I cannot take this scene no longer  
She could have told me its all over

4. Back in my home town  
The old place it's still the same  
But time can cast a spell over someone  
And you can't go back again

R: Back to the borderline one more time (2X)

5. Mister fill me another  
Till I go crazy and it turn my mind around  
Just pass that bottle one more time  
I'm slowly sinking down

6. Genie can I tell you  
The shame of my disgrace  
It's just love or rejection  
For this borderline case
