

Cruising in the Lizzymobile

Thin Lizzy

Cruising cruising

Take care stand there watch out for meter rights

Take care stand there right at the traffic lights

Cruising cruising

Take care stand there stranger approaching sight

Take care stand there cat's eyes are shining bright

Don't complain you might never feel like this again

On the windowpane you see the rain you move into the outside lane

And you want to change remain the same before you go insane

And i still maintain if you never brake you'll overtake the pain

And you know you'll learn a lot and every time that you stop

Feeling good behind the wheel cruising in the mobile

Cruising cruising

Take care stand there if life's not fair

Take care stand there twilight's only ware

Cruising cruising

Take care stand there if life's not fair

Take care stand there twilight's only ware
