

# Little Darling

Thin Lizzy

1. Little darling, gonna be a rock and roll star  
Little darling, gonna play electric guitar

R: Little darling, I'd like to get to know you  
Pleased to meet you, how do you do?

Little darling Little darling  
Little darling Little darling  
Little darling, gonna love you tonight

2. Little darling, gonna shake, shake, boogaloo  
Little darling, can I rattle my bones and dance with you?

R: And later on there'll be some lovie dovin'  
A little kissing a little hugging a little holding you

Little darling Little darling...

3. Little darling, what's your mama mama going to do?

Little darling, when she finds out I stayed out all night with you?

R: Little darling, I'm gonna miss kissing you  
Little darling, I'm gonna miss missing you

Little darling Little darling  
Little darling Little darling  
Little darling, Little darling  
Little darling, gonna love you tonight
