

## Old Flame

Thin Lizzy

There's a girl I'll remember  
Oh for such a long, long time  
This girl I'll remember  
She was an old flame of mine

Beneath the stars just sipping wine  
Young lovers then in summertime  
I'll always remember  
That old flame of mine

Love, she comes and goes  
True love, she hides then shows  
My love, may I propose  
That love she comes and goes

Two hearts together two hearts alight  
To keep us warm on winter nights  
With each dying ember  
I remember that old flame of mine

Once this flame it did brightly blaze  
Among the ashes there still remains  
A glowing spark in my heart  
For that old flame of mine
