Sugar Blues

Now I'm not the type to worry Especially if it's concerning my health Oh no, I'd never worry I'd much rather do something else I'm changing my point of view Ever since I caught me the sugar blues

Oh that sugar It adds a little sweetness in your life Oh sugar Won't you add a little sweetness to my life You see I'm changing my point of view Ever since I caught me the sugar blues

See I'm changing my point of view Ever since I caught me the sugar blues Yes, I'm changing my point of view Ever since I got me the sugar blues You see I'm changing my point of view Ever since I caught me, Ever since I caught me the sugar blues Oh yes I need me a sugar beet I'm not the type that would complain Just give me sugar cane Give me Gimme Gimme Gimme Sugar
