

Try a Little Harder

Thin Lizzy

I'm gonna make a little money gonna give it to the Holy Ghost And tell all the people about the world I miss the most

And try a little harder Just to see what it could do Try a little harder So don't be sad Baby Blue

When I'd find myself in trouble he'd be the one I'd bring them to It means an awful lot to me it might not mean that much to you

And I'd try a little harder Just to see what it could do Try a little harder So don't be sad Baby Blue

No matter where I travel, no matter where I try to go His memory is in my thoughts you know it always lingers so

And I'll try a little harder Just to see what it could do (Come on) Try a little harder Don't be sad Baby Blue

Try a little harder Just to see what it could do

Try a little harder baby Don't be sad Baby Blue (Come on)

Try a little harder baby Don't be sad Baby Blue

Try a little harder baby Stop your crying Baby Blue

I'm gonna make a little money gonna give it to the Holy Ghost And tell all the people about the world I miss the most

And I'll try a little harder Just to see what it could do Try a little harder baby Don't be sad Baby Blue

Try a little harder baby Don't be sad Baby Blue Try a little harder

Try a little harder baby Don't be sad Baby Blue Try a little harder baby Don't be sad Baby Blue Ooh...
