

Follow Me There

Third Day

You need a place where you can find some shelter
Follow me there, follow me there
You want a hand to hold, someone to help you
Follow me there, come on, follow me there

Where love, like a river, flows
Peace like you've never known
And joy never ending lives
A place where faith can find
Hope that will never die
Follow me there, come on, follow me there

You need a place to be your sanctuary
Follow me there, come on, follow me there
Where you can lay down all those burdens you carry
Follow me there, come on, follow me there

Where the lost can find salvation
And the lonely finds a friend
Where the sinner finds forgiveness
Won't you follow me there
Won't you follow me there
