

Otherside

Third Day

I've been sitting here for way to long
It's time that I was moving on
I know that there is a better way
It think I'm going to make a change

So come along now, to where I'm going

I came into the otherside
'Cause I need something better
I came into the otherside
'Cause I want to live forever

One thing that is for sure I know
This won't be an easy road
Let me ask before I leave
Won't you come along with me

I came into the otherside
'Cause I need something better
I came into the otherside
'Cause I want to live forever

Take me to the otherside

So come along now, to where I'm going (2x)

I came into the otherside
'Cause I need something better
I came into the otherside
'Cause I want to live forever

Take me to the otherside (3x)

'Cause I want to live forever, live forever
Take me to the otherside
