

# Time's Running Out on Me

Third Day

There's so many places I wanna see  
So many things that I wanna be  
But time's running out on me

There's so many places I gotta go  
So many things that I need to know  
But time's running out on me  
Time's running out on me

Tell me how this started  
Look what I've become  
Here with all of my regrets and broken dreams  
Are you gonna help me find the strength to carry on  
'Cause time's running out on me, yeah  
Time's running out on me

There's so many things that I've yet to do  
So many things that I need to prove  
But time's running out on me  
So many things that I need to say  
But I let the words get in the way  
And time's running out on me, yeah  
Time's running out on me, yeah

Time is running out on me  
Now the end is near  
Time's running out on me  
Now the end is near

Time is running out on me  
Now the end is near

Time is running out on me, yeah  
Time is running out on me, yeah  
Time is running out on me, yeah  
Time is running out on me, yeah

Are you gonna help me find the strength to carry on  
'Cause time's running out on me, yeah  
Time's running out on me  
Time is running out on me, yeah  
Time is running out on me, yeah  
Time is running out on me, yeah  
Time is running out on me, yeah
