There's so many places I wanna see So many things that I wanna be But time's running out on me

There's so many places I gotta go So many things that I need to know But time's running out on me Time's running out on me

Tell me how this started

Look what I've become

Here with all of my regrets and broken dreams

Are you gonna help me find the strength to carry on

'Cause time's running out on me, yeah

Time's running out on me

There's so many things that I've yet to do
So many things that I need to prove
But time's running out on me
So many things that I need to say
But I let the words get in the way
And time's running out on me, yeah
Time's running out on me, yeah

Time is running out on me Now the end is near Time's running out on me Now the end is near

Time is running out on me Now the end is near

Time is running out on me, yeah Time is running out on me, yeah Time is running out on me, yeah Time is running out on me, yeah

Are you gonna help me find the strength to carry on 'Cause time's running out on me, yeah
Time's running out on me
Time is running out on me, yeah
Time is running out on me, yeah
Time is running out on me, yeah
Time is running out on me, yeah
