

Burning Man

Third Eye Blind

The rise and fall of my sloppy love, The smatterin's, and splat
terings
They'll get ya
I'm not the one you were thinking of
Maybe you thought I'd call, Instead of crashing down your hall
Hold me down, I wanna find out
You know you will never get what you need

Blue Diamond strike 'em anywhere
First we caffeinate, then incinerate
We'll get ya
And sparks will fly in the summer air
Did you pull out of your stall
Maybe I'll see you after all
Hold me down, I wanna find out
We say no
Cause' I live my life like a burnin' man
Like a burning man
A burning man
A burnin', burn
And I won't get enough until my legs are broken

My rise and fall, shinin' in a void
Life is not to fear, life is to enjoy
He'll get ya
Oh Mr. Death catches all someday
Baby I thought you'd call
Or leave a light on in the hall
Hold me down, But I'll find out
We say no
Cause' I live my life like a burnin' man
Like a burning man
A burning man
Like a burning, burn
Hold me down
I wanna find out
We say no
'Cause I live my life like a burnin', burn
Like a burning man
A burning man
Like a burning, burn
And I won't get enough
Until my legs are broken
