The rise and fall of my sloppy love, The smatterin's, and splat terings
They'll get ya
I'm not the one you were thinking of

Maybe you thought I'd call, Instead of crashing down your hall Hold me down, I wanna find out

You know you will never get what you need

Blue Diamond strike 'em anywhere
First we caffeinate, then incinerate
We'll get ya
And sparks will fly in the summer air
Did you pull out of your stall
Maybe I'll see you after all
Hold me down, I wanna find out
We say no
Cause' I live my life like a burnin' man
Like a burning man
A burning man
A burning man
A burnin', burn
And I won't get enough until my legs are broken

My rise and fall, shinin' in a void Life is not to fear, life is to enjoy He'll get ya Oh Mr. Death catches all someday Baby I thought you'd call Or leave a light on in the hall Hold me down, But I'll find out We say no Cause' I live my life like a burnin' man Like a burning man A burning man Like a burning, burn Hold me down I wanna find out. We say no 'Cause I live my life like a burnin', burn Like a burning man A burning man Like a burning, burn And I won't get enough Until my legs are broken
