

The Red Summer Sun

Third Eye Blind

There's a big red sky
Over you and I
And it's coming down
And we're pumping over ground
In desert air
I hope you'll be there
Cause it's coming down
Pumping over ground

I've seen car wreck kids
Walk away from it
I laughed from within
I know these days will end

Been a long time, been a long time
To walk with the mighty
Walk with the mighty
Let me go, let me go
On my own road, said
Been a long time, been a long time
To walk with the mighty
Walk with the mighty
Let me go, let me go
On now rock on

I'll make do with none
I will blame no one
Slept on packing foam
I'll make it all my home
Take on anyone
I'll take on anyone
I'll take on anyone
I'll take on anyone
I'll take on, take on anyone, I'll
Take on anyone
I'll take on anyone
I'll take on, I will take on anyone
I'll take on anyone
I'll take on anyone, I'll

Been a long time, been a long time
To walk with the mighty
Walk with the mighty
Let me go, let me go
With the martyr, go
Been a long time, and I won't
I will walk with the mighty
I'm gonna walk with the mighty
Let me go, let me go
On my own so

Take on anyone
I'll take on,
I'll take on anyone
I'll take on,
I'll take on anyone
I'll take on anyone, I'll

These days, they're not done, no
These days, they're not done
See the red summer sun
These days, they're not done
The red summer sun
The red summer sun
