

# You've Got the Power (To Make a Change)

Third World

By William Clarke

You've got the Power  
You've got the Power Ahoy

I-been to so many places not knowing just  
what I'd find  
I seen so many different faces but they  
always stay fresh in my mind

Some of them seem so lonely trying to make it  
on their own  
Wondering where to turn to knowing you can't  
make no blood out of stone

(Chorus "A")

People everywhere they just want to be free  
But they find it so hard to be what they gotta be  
Gotta be the teaching of their society

(Chorus "B")

Brother you've got the Power to make a  
change  
Sister you've got the Power rearrange

(Repeat Chorus "A" & "B")

I've been through hard time decisions  
When I could not tell right from wrong  
But at the end of my destination  
I've found out that's just where I belong

(Repeat Chorus "A")

(Repeat Chorus "B" four times)
