

No Sugar

Thirsty Merc

No sugar coming my way
It's your way or the highway
No loving in the daylight
No rubbing in the dark night
I just want some affection
In my direction
I don't care what the people say
No sugar coming my way
I met a girl with beautiful blonde hair
Two words, don't care
'cause all I'm thinking about is what I just lost
Small price, big cost
What's it gonna be for a guy like me
When everything is over
And why do I get outta bed at all
When I get back in later
No sugar coming my way
It's your way or the highway
No loving in the daylight
No rubbing in the dark night
I just want some affection
In my direction
I don't care what the people say
No sugar coming my way
You said that you needed some space
Well our love, erased
I never thought I'd be feeling so bad
Well past tense, I had
What's it gonna be for a guy like me
With this around the corner
Hey, just keep this clear in your mind baby
You're somebody's daughter
No sugar coming my way
It's your way or the highway
No loving in the daylight
No rubbing in the dark night
I just want some affection
In my direction
I don't care what the people say
But no sugar coming my way
No sugar coming my way
It's your way or the highway
No loving in the daylight
No rubbing in the dark night
I just want some affection
In my direction
I don't care what the people say
But no sugar coming my way
I don't care what the people say
But no sugar coming my way
