

Falling To The Ground

Thirteen Senses

If i make a sound
Will you stop everything im innocent
When im not around
Will you cover your eyes and imagine

Can you hear it
Can you see it
Falling, falling to the ground

I can see it, I can see it it's hear all around
I can hear it when im putting my ears to the ground

Keep splashing down
Blows us out of the situation
What i have found
Is my own kind of entertainment
They turn to fly
When the've only just landed beside us

Can you hear it
Can you see it
Falling, falling all around

Can't you hear it
Can't you see it
Falling, falling to the ground

I can see it, I can see it it's here all around
I can hear it when im putting my ears to the ground

And when we turn away
We breath like glass we laugh and cry
I shouldn't hesitate
We breath like glass we laugh and cry

I can see it, I can see it it's here all around
I can hear it when im putting my ears to the ground
