

Last Forever

Thirteen Senses

Sunrise is over
Your walking on by
And i'm nowhere
Two lives driven by quakes
Your walking a life
So i'm no-one

Angel see the signs
Don't worry leaving me behind

Animals they walk, out of their hiding place
Cause their no-one
Temper carries over
Your numbers have dropped
So your no-one

Angel see the signs
Don't worry leaving me behind
And our cruddy lives
Our best when shaped into a neck

And all we gotta know
We were the first that last forever
