

## The Ones

## This Beautiful Republic

We're the ones  
And you're looking up at us  
Saying be the ones, be the ones  
You're the ones  
And we're looking up to you  
Saying you're the ones

We're the ones  
And you're keeping us alive  
Saying be the ones, be the ones  
You're the ones  
Who are holding the front line  
You're the ones

Welcome every one  
Who came out to the show  
Show me that you're ready, you're ready to go  
Welcome every one

Welcome every one  
Who came out to the show  
We're wound up and we're ready  
We're ready to go

Welcome every one  
Who came out to the show  
Show me that you're ready, you're ready to go  
Welcome every one  
Welcome every one  
Show me that you're ready  
Show me that you're ready, ready to go
