

# Fool's Game

This Century

My head, my head, my head was far from my heart  
A separation I should have known from the start

This could be dangerous  
Like strangers  
Haven't you had enough?  
Was I chasing you for nothing?

Love is a fool's game  
If I could let it go  
I'd show a side of me that you'd never know  
So if we're gonna play  
Don't take it personal  
You know we'll never be responsible or rational  
Love is a fool's game

This could be dangerous  
The two of us

If you were my lady and I was your man  
I'd need your heat right next to me  
If you were my lady, my baby in red  
I'd light up the sky 'cause your dress is killing me

Love is a fool's game  
If I could let it go  
I'd show a side of me that you'd never know  
So if we're gonna play  
Don't take it personal  
You know we'll never be responsible or rational  
Love is a fool's game

I never want to slow down the speed of this moment  
I never want to come down  
Give me your love like I want you to

This could be dangerous  
This could be dangerous  
The two of us  
The two of us

Love is a fool's game  
If I could let it go
