

Go Get Her

This Century

I'm scared to fall for you,
After what I've been through
You say it's getting old,
And I should make a move

Should I ask everyone
Take a chance before it's done
To see what could become
Of me when I'm with you

Go go go and get her
Don't just let her
Turn you away whoa whoa
Say say say you need her
And just be there
Get her to stay
Don't don't don't let love just slip away

I shouldn't hesitate
Cause now it's getting late
Like a ride that moves too fast
The fear can make you wait

She said that it's alright
Sometimes it just feels right
To ride and hold on tight
Cause I'll be there with you

Go go go and get her
Don't just let her
Turn you away whoa whoa
Say say say you need her
And just be there
Get her to stay
Don't don't don't let love just slip away

Go go go go go and get her

Go go go and get her
Don't just let her
Turn you away whoa whoa
Say say say you need her
And just be there
Get her to stay
Don't don't don't let love just slip away
