

# Lightning

This Century

She don't smile anymore, she says she lost the war  
The war on loving me  
Who's been looking for a fighting chance  
The feeling of our last dance with the music slowly fading

She's like lightning, don't strike twice, don't strike twice, d  
on't  
She's like lightning, don't strike twice, don't strike twice, d  
on't  
She's like lightning, you don't strike twice at all

It's impossible to see when hearts turn away  
Wrongs can't make it right  
When we would learn from our mistakes, we would bend until it b  
reaks  
And now we're picking up the pieces

She's like lightning, don't strike twice, don't strike twice, d  
on't  
She's like lightning, don't strike twice, don't strike twice, d  
on't  
She's like lightning, you don't strike twice at all  
You don't strike twice at all  
For me

She's like lightning, don't strike twice, don't strike twice, d  
on't  
She's like lightning, don't strike twice, don't strike twice, d  
on't  
She's like lightning, don't strike twice, don't strike twice, d  
on't  
She's like lightning, don't strike twice, don't strike twice, d  
on't

She's like lightning, you don't strike twice at all  
You don't strike twice at all, you don't strike twice at all
