

Money Honey

This Century

No I don't got money
But I got the time honey
If you'll wait for me to turn this all around
I'm in debt to you always
As we make the same mistakes
Just know jealousy's no longer in the way

Let's learn to put the past behind us
Let love push through the door and find us
Just keep your heart wide open
So I can fix what's broken
Stay around maybe I can be a better me

We could sprawl across our floor
Staying up until it's four
Make your eyes my entertainment for the night
Make a home to call our own
I know it's nothing yet but we can make it great
Cause we would never be alone, alone, alone

Let's learn to put the past behind us
Let love push through the door and find us
Keep your heart wide open
So I can fix what's broken
Stay around maybe I can be a better me

I can be
a better me
I can be
a better me
I can be
a better me, a better me, ohhh

Just keep your heart wide open
So I can fix what's broken
Stay around maybe

Let's learn to put the past behind us
Let love push through the door and find us
Keep your heart wide open
So I can fix what's broken
Stay around maybe I can be a better me

I can be a better me
I can be a better me
I can be a better me
I can be a better me
