

Running

This Century

Your head, your toes
And everything that's in between
Don't mean, don't mean a thing to me

Cause you're from concentrate
You don't know how to keep it straight
When you're around me, around me
So I'mma concentrate on keeping sure
You don't try to come back for more

Running me, running me in circles
Yeah you're doing it, doing it again
Why would you, why would you deny
That we were never friends
We were never friends
We were never friends

Running me, running me in circles
Yeah you're doing it, doing it again
But I can see that obviously in the end
We were never friends

Your eyes hide lies
Lies you'll never tell
You tried keeping me under your spell

Cause you're from concentrate
You don't know how to keep it straight
When you're around me, around me
So I'mma concentrate on keeping sure
You don't try to come back for more

Running me, running me in circles
Yeah you're doing it, doing it again
Why would you, why would you deny
That we were never friends
We were never friends
We were never friends

Running me, running me in circles
Yeah you're doing it, doing it again
But I can see that obviously in the end
We were never friends

Stop talking the talk
Start Walking the walk
Another mess, another mess you'll have to clean
Stop talking the talk
Start Walking the walk
The walk
The walk

Your eyes hide lies
Lies you'll never tell

Running me, running me in circles
Yeah you're doing it, doing it again

Why would you, why would you deny
That we were never friends
We were never friends
We were never friends

Running me, running me in circles
Yeah you're doing it, doing it again
But I can see that obviously in the end
But I can see that obviously in the end
We were never friends
We were never friends
We were never friends
We were never friends
We were never friends
